Himanshu Shankar

Bengaluru India • **me@himanshus.com** • **iamhssingh** • **iamhssingh**

SUMMARY

Hands-on engineering leader with 11+ years building production platforms across AI orchestration, enterprise workflows, integrations, and regulated systems. Scaled engineering organizations from founding stage through Series B while remaining close to architecture, code, reliability, and customer outcomes.

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, Django REST Framework, FastAPI, Flask, Go, React
Systems & Data: Distributed systems, microservices, event-driven architecture, PostgreSQL, MongoDB, Redis, Qdrant, Kafka, Celery
Cloud & Platform: AWS Lambda, SQS, Step Functions, API Gateway, Fargate, S3, RDS, Terraform, Docker, GitHub Actions, Datadog, Sentry
AI & Integrations: OpenAI Agents SDK, LLM tool orchestration, retrieval and reranking, spec-driven development, REST, SOAP, webhooks, enterprise integrations
Leadership: Architecture, technical strategy, engineering org scaling, hiring, performance management, product delivery, client leadership

EXPERIENCE

GetLoopie.ai
Feb 2025 – Mar 2026

Co-Founder
Bengaluru India

- Built a headless agentic engine that executed engineering workflows across Slack, Linear, Jira, Teams, Notion, and Fathom
- Designed event-driven tool selection and a Work Graph ingestion pipeline for context assembly and real-time commitment tracking
- Scoped retrieval permissions across DMs and private channels using Qdrant filtering, Top-K semantic search, and LLM reranking
- Took the containerized product from concept through **5 pilots**, owning architecture, backend, integrations, deployment, and validation
- Used spec-driven development with Claude Code and Codex to turn product requirements into reviewed implementation plans
- Built with FastAPI, PostgreSQL, MongoDB, Redis, Qdrant, Celery, APScheduler, OpenAI Agents SDK, and Hetzner

Certa (Opinr Inc. d.b.a. Certa)
Jun 2019 – Feb 2025

Director of Engineering
Founding Backend Engineer → Director

- Built hiring, review, and Spotify-inspired POD systems that helped scale engineering from **5 to 50**; led Backend and DevOps through **4 leads**
- Extracted an integration framework causing **30% of on-call incidents** into an isolated serverless service with approximately **250 configurations**
- Re-architected audit logging with SQS, Lambda, and MongoDB; peaked near **10K events/second** during migration with approximately **50 ms** Lambda execution
- Led an AI-assisted vendor intake product that prefilled forms with **50+ fields** from unstructured documents, reducing completion from **3–7+ days** to under **2 days**
- Designed configurable adjudication across vendors, UBOs, related entities, and RDC alerts using an Event–Condition–Action workflow architecture
- Drove cross-team architecture standards through design reviews and CI gates; raised coverage to **90%+**, cut cycle time **30%**, and spillover **40%**
- Led hands-on production debugging across race conditions, queues, databases, and APIs; kept **P99 below 100 ms** against a **200 ms SLA** and cut on-call defects **35%**

Civil Machines Technologies Pvt. Ltd. *Oct 2014 – Dec 2018*
Technology Lead Noida India

- Built 101Lease as a modular asset-management platform that produced **4** business-specific adaptations
- A SafeHoms deployment reduced its lead-management team from **120 to 20** in **30 days** and grew monthly revenue from **INR 80L to 1.8Cr** in **60 days**
- Led an **8-person** team building Sweet2th across Django, Flutter, and React with configurable marketplace relationships, commissions, and payouts
- Designed EnsureGST and EnsureTax around business processes, reducing new-user training below **4 hours** and improving team and customer efficiency by **37%**

EDUCATION

SRM Institute of Science and Technology India
B.Tech in Computer Science and Engineering *2014 – 2018*
First Division with Distinction, CGPA: 8.98 / 10

WorldQuant University Online
MSc Financial Engineering (Withdrew after 3 of 10 courses at 94%) *2022*
Financial engineering fundamentals; withdrew to focus on professional commitments

RECOGNITIONS & COMMUNITY

- **Professional memberships:** IEEE Senior Member (2025–Present), ACM Member, The Institution of Engineers (India) Member
- **Foundation memberships:** Django Software Foundation Recognized Individual Member, Python Software Foundation Member
- **JetBrains PyCharm Project of the Decade** – Awarded for drf-user, an open-source Django REST Framework user application
- **Speaker**: DjangoDay India 2025 (“Immutable Audit Trails in Django: SOC2/CFTC-Grade Without the Pain”); PyCon India (2018, 2020, 2021, 2023); PyDelhi
- **Smart India Hackathon** – Mentored winning team (2018) and grand-finalist team (2020) under the 101Loop community banner
- **101Loop (2018–2021)** – Founded and led; free remote training and mentorship for CS students across India
